

National Science Foundation
Directorate for Computer and Information
Science and Engineering

To Whom It May Concern:

This letter is to confirm that **Sarah Mundy** was selected for the National Science Foundation's (NSF) 2022 Computer and Information Science and Engineering (CISE) Graduate Fellowships (CSGrad4US) program.

CSGrad4US aims to increase the number and diversity of US Citizen and permanent resident graduate students pursuing research and innovation careers in the CISE disciplines: computer science, computer engineering, or information science. In particular, CSGrad4US provides an opportunity for bachelor's degree holders who may be working in industry or other sectors to return to academia and pursue research-based doctoral degrees.

The first phase of the CSGrad4US Fellowship is a part-time, mentored preparation program beginning in Fall 2022 and continuing through the graduate school application process. The second phase is the fellowship itself, which constitutes three years of support for graduate study that leads to a research-based doctoral degree in a CISE discipline. To eventually receive a fellowship, they must successfully enroll in a doctoral degree-granting program in a CISE discipline at an accredited, non-profit institution of higher education having a campus located in the United States, its territories or possessions, or the Commonwealth of Puerto Rico in Fall 2023 or Fall 2024.

Each CSGrad4US Fellowship will be in the amount of \$138,000, for three years of support during a five-year fellowship period. For each of the three years of support, NSF will provide a \$34,000 stipend and \$12,000 cost-of-education allowance to the doctoral degree-granting institution of higher education for each Fellow who will use the support in a fellowship year. More details about how to receive the fellowship funding will be provided to successful CSGrad4US Fellowship applicants when they notify NSF that they have been accepted into a doctoral degree-granting program.

Please refer to the CSGrad4US Dear Colleague Letter at <https://www.nsf.gov/pubs/2022/nsf22061/nsf22061.jsp> for more information.

Sincerely,

A handwritten signature in black ink, appearing to read 'Gurdip Singh', is located below the 'Sincerely,' text.
